PERSONAL STATEMENT

IT student in the Grade 11 ASSH/IT strand (section ARIES) with a focus on web development. I combine historical research, visual design, and web development to create interactive educational experiences. I created, designed, researched, and directed The Napoleon Library, a responsive multi-page digital library, as my Grade 11 ARIES project.

FEATURED PROJECT

The Napoleon Library

Grade 11 ARIES project | Educational historical digital library

An interactive digital library that presents Napoleon Bonaparte's life, campaigns, reforms, and legacy in an engaging, organized, and accessible web experience. Deployed on Vercel with reader accounts, a members-only room, and a feedback system.

Role

Creator | Project Director | UI/UX Designer | Content Researcher | Writer | Developer

Key contributions

- Researched, wrote, and fact-checked every section: biography, timeline, works and reforms, marshals, exile, quotes, and the members-only Greatest Wars room.
- Planned the information architecture and designed the imperial-era visual identity (dark ink background, gold accents, serif display type).
- Directed development of the responsive multi-page site in React, TypeScript, TanStack Router, and Tailwind CSS, using AI-powered web development tools to help generate and modify parts of the code.
- Planned and directed reader accounts and the members-only room, implemented with Supabase Auth; set up the feedback form and deployed the site on Vercel.
- Tested the experience on mobile, tablet, and desktop and refined layout, spacing, and readability.

SKILLS

Front-end	HTML, CSS, JavaScript, TypeScript, React, Tailwind CSS
Design	Page layout, typography hierarchy, color palette, responsive design, UI/UX
Research & writing	Historical research, fact-checking, content writing, information architecture
Tools & workflow	Git & GitHub, Vite, Supabase Auth, Vercel deployment, AI-assisted development tools

TECHNOLOGIES USED

React | TypeScript | Tailwind CSS | TanStack Router | Vite | Supabase | Vercel | Git & GitHub | Responsive Web Design | AI-assisted development tools

EDUCATION

Grade 11 - Academic Strand (ASSH/IT), Section ARIES

Information Technology track focused on web development, design fundamentals, and project planning.
